\$15.00 out of every \$100.00 you pay for Insurance goes to your own Association, if you place it with the Co-op.

## CHICKENS

Let us explain how we can handle your Chickens.

Hens 18c, Chicken 27c. this week, and chance for Dividend later.

### Stop Decrying The Farm

Confronted with the task of re-organizing Canada on a peace basis following the upheaval of the Great War, and faced with the necessity of discharging that task under entirely new conditions and with a new social order demanded by all, thinking men and women all over the Dominion are endeavoring to ascertain what is Canada's most pressing need and how that need can be supplied.

It seems to be fairly generally accepted that from a financial, economic and purely business standpoint the most pressing national need of this Dominion is that all men and women shall become imbued with the ambition to work as they have never worked before, and by their labor produce from the natural resources of this country the wealth which will enable Canada to meet its enormous war debt and heavy national obligations, and discharge the duties and responsibilities imposed upon it.

Opinion, however, is divided as to the policies to be inaugurated and the methods employed to bring about this development of our natural resources and consequent greater production of wealth. Consequently upon this division of opinion, many phases of the big problem have become political issues in a partisan sense, one party advocating one policy, another party upholding an entirely different policy and course of action. In regard to those aspects of this problem which have become subjects of political controversy it is not the function nor intention of the writer of this article to deal. We leave them to governments and politicians, and to the people who, by the exercise of their franchise, make or unmake governments and politicians.

In the final analysis, however, it is the farmers of Canada who must largely solve the problem which confronts Canada today. Farmers represent the greatest and the basic industry of Canada. As a class they constitute the largest group in our population. They are the largest primary producers of wealth in this Dominion. Unless agriculture prospers, Canada cannot grow and prosper. These are self-evident facts. It is important, therefore, that the country should be impressed by them, and that all governments in Canada should govern themselves accordingly. The government that devotes itself most assiduously to the welfare and promotion of successful agriculture in Canada will prove to be the best government.

However, while governments can do much, and ought to do far more than they have done in the past to encourage and develop the business of farming, there are some things which the people, and more particularly the farmers, must do themselves. Some of these things were

referred to by Hon. Duncan Marshall minister of agriculture for Alberta, in a recent speech which is deserving of the widest possible publicity.

First and foremost, declared Mr. Marshall, it is our duty to see to it that the farmers' sons and daughters throughout the entire Dominion are so effectively trained that they will be qualified to make the best farmers and farmers' wives that can be found anywhere in the civilized world. He arraigned Canadian governments for their failure to spread agricultural education throughout Canada. "Never in Canada's history," he said, "was the need of agricultural education so serious. Never in public school did a teacher tell me it would be a fine thing to be a farmer. I never had a teacher say to me that it would be the finest and best ambition to settle down and endeavor to become the best cultivator of land and best live stock breeder in the county of Bruce. I am a big short-horn breeder in Alberta in spite of the education I got in Ontario. In Belgium, the best draft horse breeding country in the world, I find in the school text books such lines as 'this horse is a good horse because his feet are sound,' and 'this horse is a strong horse because his back is short.' When I read that I understand why Belgium beats the world in horse breeding, and then I think of the stuff they told me about the cat and the rat and the hat and the mat."

Mr. Marshall continued: "We have got to teach the boys and girls in the public schools that the finest business in this world, the one that offers the biggest opportunity for home building and the greatest opportunity to become a useful citizen is that of tilling the soil on a good farm. We have gotten away from this business of belittling the farmer, and there have been many farmers engaged in running down their own business more than anybody else. They say that it is drudgery, and the ladies at times have held such things as 'Poor girl, she married a farmer. That is the kind of thing I want to get out of the minds of the sons and daughters of this Dominion of Canada.'"

And who will say Mr. Marshall is not right? One never hears of a lawyer, doctor, or a manufacturer decrying his business, nor their wives and children so. On the contrary, they boast of their occupations as the best and finest in the world. We all need to stop decrying the farming business, and on the other hand, to give Canadian boys and girls an inspiration to take up agriculture. The welfare of our people and our national stability depends upon it.

#### His Chief Want

The parlor Bolshevik had the floor. "I want land reform," he shrieked. "I want education reform. I want church reform. I want marriage reform. I want—"

But here a listener interrupted with a loud and savage yawn: "What you want, old man," he said, "is chloroform."

**It Eases Pain.**—Ask any druggist or dealer in medicines what is the most popular of the medicinal oils for pains in the joints, in the muscles or nerves, or for neuralgia and rheumatism, and he will tell you that Dr. Thomas' Electric Oil is in greater demand than any other. The reason for this is that it possesses greater healing qualities than any other oil.

#### French General Dies

Paris.—General Lemonnier de Bois-deffe, former chief of staff of the French army, is dead. He was born in 1838.

Tea and Coffee  
are not considered good for  
young people, but nothing is  
missed when you have

## INSTANT POSTUM

Its rich flavor pleases, and it  
contains absolutely nothing  
harmful. "There's a Reason"

### Third Dose Relief! Fifth Dose! Diarrhoea Stopped.

Diarrhoea does not need to persist for any length of time until the whole system is weakened and debilitated. No other disease so quickly undermines the strength and brings about a condition of prostration and very often total collapse.

Dr. Fowler's Extract of Wild Strawberry is not only prompt and effective in checking the diarrhoea, but at the same time acts as a stimulant, strengthens the heart and braces up the whole system, and one of its principal points is that it does not leave the bowels in a constipated condition.

Mr. W. H. Arnold, Fort Qu'Appelle, Sask., writes: "A few years ago while out thrashing, I had a severe attack of diarrhoea. Nothing I took seemed to do me any good. I was getting worse all the time. Hearing that Dr. Fowler's Extract of Wild Strawberry was good for diarrhoea, I went into town and procured a bottle. After the third dose I felt relief, and after I had taken the fifth dose the diarrhoea had stopped. I always keep it in the house, and would not be without it."

See that you get the original "Dr. Fowler's Extract of Wild Strawberry" for the past 74 years. Substitutes may endanger your health. Price 35c. Put up only by The T. Milburn Co., Limited, Toronto, Ont.

One of the ever present difficulties of a married man is to account for his absence from home.

### LEMON JUICE IS FRECKLE REMOVER

Girls! Make This Cheap Beauty Lotion to Clear and Whiten Your Skin

Squeeze the juice of two lemons into a bottle containing three ounces of orchard white, shake well, and you have a quarter pint of the best freckle and tan lotion and complexion beautifier, at very, very small cost.

Your grocer has the lemons and your drug store or toilet counter will supply three ounces of orchard white for a few cents. Massage this sweetly fragrant lotion into the face, neck, arms and hands each day and see how freckles and blemishes disappear, and how clear, soft and even the skin becomes. Yes! It is harmless.

What a pity that the truth is the most disagreeable thing one can say about some people!

Worms feed upon the vitality of children and endanger their lives. A simple and effective cure is Mother Graves Worm Extirminator.

#### Vicount Grey Sails Sept. 16

London.—Vicount Grey, the new British ambassador to the United States, will sail for New York on Sept. 16, it was announced here.

### ALMOST LYNCHED

It happened to a local druggist that sold his cheap acid corn salve instead of the reliable Putnam's Corn Extractor.—Substitutes burn the flesh. Putnam's cures the corn. Use only the best—Putnam's, 25c at all dealers.

#### Big Expenditure at North Battleford

One hundred thousand dollars is the estimated cost of the new buildings being constructed by the Canadian National railways at North Battleford. The new works include a 15-stall roundhouse, a new machine shop, 86 by 40 feet, a new compressed air driven turntable, and a complete new equipment for the machine shop. The new roundhouse is being built in the rear of the existing one, and is half as big again as the present structure. Some idea of the amount of concrete called for in the specifications can be gathered from the fact that over 4,000 barrels of cement will be used.

#### Many Steps

George: I told her I was going to kiss her once for every step of the way home.

Jack: And what did she do?  
George: Became very angry, but she went upstairs and put on a hobble skirt.

#### Mount Vesuvius Active

Rome.—After loud rumblings, Mount Vesuvius has begun erupting again, two streams of lava flowing toward the valley. So far the eruption has not been so heavy as to threaten the villages at the base of the mountain.

### Canadian Soldiers Wanting Land

Approximately 6,500 Loans Granted Through the Board for Former Soldiers

Regina.—To the end of July, 25,000 applications had been made to the Soldiers' Settlement Board by returned soldiers wishing to go on the land, according to Col. R. Innes, director of the agricultural branch of the board's work, who paid an inspection visit here. Of these, 22,000 had been disposed of and 74 per cent. of the 22,000 actually had been approved. Approximately 6,500 loans had been granted through the board to former soldiers and 3,500 discharged men had been given free land grants. The total expenditures to July 31 amounted to \$20,500,000 and the average loan was \$3,100. There was no sign of falling off in the demand for loans, according to Colonel Innes, and settlement was well distributed throughout the entire country. At present there were 600 returned soldiers in the various training centres acquiring experience in farming before taking up land.

**All Night with Asthma.**—Everyone knows how attacks of asthma often keep their victim awake the whole night long. Morning finds him wholly unfitted for a day of business, and yet, business must still be carried through. All this night suffering and lack of rest can be avoided by the prompt use of Dr. J. D. Kellogg's Asthma Remedy, which positively does drive away the attacks.

#### Livestock Industry in North

Some idea of the extent of the livestock industry in the Battelford district can be gained from the fact that 120 cars of stock have received official certificates for shipment since July 1. A considerable portion of the shipments was from the Turfville branch, along which thousands of cattle are being fattened upon the prairie grasses. It should be understood that this shipment represents fat stock and cattle have not been rushed to market in an unfinished condition because of shortness of feed, which is responsible for heavy shipments in some dry areas.

#### Minard's Liniment Cures Dandruff.

#### The Lot of the Rural Teacher

Coalition of schools provides better buildings and other advantages, but the important step in improvement of public schools is procurement of well-equipped teachers in such circumstances that they will feel warranted in continuing in their situations. When the rural teacher is the worst paid teacher in the community it is not to be expected that the community will have good schools.—Louisville Courier-Journal.

### BABY COVERED WITH ECZEMA

When 4 Days Old, Cries  
and Cried, Cuticura Heals.

"My baby brother had eczema which began when he was about four days old. It came in little pimples and then a rash and he was covered. He was so cross that he could not sleep, and he cried."

"This lasted about two months before we used Cuticura. It helped him, so we bought more, and he was all healed after we had used two cakes of Soap and two boxes of Ointment." (Signed) Miss Almada Williams, Youngs Cove, A. B., May 22, 1914.

\* Use Cuticura Soap, Ointment and Talcum for all toilet purposes.  
For free sample send to Cuticura Dept., Old Dominion, Boston, U. S. A. Sold everywhere.

#### Destroy Cold Storage Eggs

Winnipeg.—Four hundred pounds of cold storage eggs were destroyed here on instructions from the chief city health inspector.

### A MOTHER'S TRIALS

#### Care of Home and Children Often Causes a Mother's Trials

The woman at home, deep in household duties and the cares of motherhood, needs occasional help to keep her in good health. The demands upon a mother's health are many and several of her own health trials and her children's welfare exact heavy tolls, while hurried meals, broken rest and much indoor living tend to weaken her constitution. No wonder that the woman at home is often indisposed, nervous, headachy, backaches and nervousness. Too many women have grown to accept these visitations as a part of the lot of motherhood. But many and varied as her health troubles are, the cause is simple and the cure at hand. When well, it is the woman's good blood that keeps her well; when ill, she must make her blood rich to renew her health. The nursing mother more than any other woman in the world needs rich blood and plenty of it. There is one always-unfailing way to perfect health, and that is through the use of Dr. Williams' Pink Pills. These pills make new blood abundantly, and through it use thousands of weak, ailing wives and mothers have been made bright, cheerful and strong. If you are ailing, easily tired, or depressed, it is a duty you owe yourself and your family to give Dr. Williams' Pink Pills a fair trial. What this medicine has done for others it will surely do for you.

#### A Real Sneeze

"Kitty, this is our wedding anniversary. Let's go out and buy something useless that we can't afford."

It's up to you to have the best

The man who buys an inferior article is the loser in the long run. It's the long run that counts.

**32 Kinds of Apples  
Raised on One Tree**Horticultural Wonder Also Pro-  
duces Six Varieties of Pears.

An apple tree bearing 32 kinds of apples and six of pears has been produced by Henry Flater, of Findlay, U.S., after years of experimenting.

The tree, declared by experts to be one of the most exceptional horticultural wonders ever produced, was the last of the famous Vance orchard. When Flater went to work on it the trunk was decayed in a number of places. Limbs were dead and farmers declared it never would yield again.

Filling the holes with cement and bracing the broken limbs with chains, Flater grafted on a number of kinds of apples. Year after year he added on new grafts until this summer the tree is giving more than three dozen kinds of fruit.

The tree is more than 70 years old and is bearing apples from early summer until late fall.

The following item clipped from an exchange shows that editors in Yankedom, as well as in Alberta, sometimes get in distress:

"It is reported that one of the fastidious ladies of this town kneads bread with her gloves on. This may be somewhat peculiar; but there are others. The editor of this paper needs bread with his shoes on; he needs bread with his shirt on; he needs bread with his pants on; and unless some delinquent subscribers to the Flag of Freedom pony up before long he will need bread without a d—n thing on, and North Dakota is no Garden of Eden in winter time."—San Benito Light.

A Good Reason.—Monorist blocked by load of hay: "I say, there, pull out and let me by. You seemed in a hurry to let that other fellow's wagon get past. Driver: That's cause his horses wuz eatin' my hay."

**Legal Notice****DOMINION LANDS****Increase in Rate of Interest.**

**PUBLIC NOTICE** is hereby given that in accordance with the provisions of an Act to amend the Dominion Lands Act, passed at the last Session of Parliament, and commencing from the 7th July, 1919, where interest is chargeable, the rate of such interest on all new transactions in connections with Dominion Lands shall be six per centum per annum; also that from the 1st of September, 1919, the rate on all overdue instalments in connection with both past and future transactions will be increased to seven per centum per annum.

By order,

L. FERREIRA,

Secretary.

## Warning Against Hoarding Sugar

Toronto.—With reference to an Ottawa dispatch of August 23, stating that the wholesale grocers, in their convention at Ottawa, had predicted that sugar would rise to 20 cents a pound before the present shortage would be relieved. Hugh Blain, president of the Wholesale Grocers' association of Canada, said: "There must be some mistake about this, as no discussion took place at the convention as to what the price of sugar was likely to be. It was, however, stated to the convention that speculators in the United States had bought fifty cars of granulated sugar, held in Halifax, at the regular Canadian price, but it had been resold to other speculators in the United States and was now offered at \$13.90 at Halifax to the Dominion government, and I believe a few cars were bought at this price. The convention generally felt that to buy sugar at such a figure might have the effect of creating an advance on all sugars, which would be most unfortunate."

"It was also felt that selling this sugar would have the appearance of profiteering, even if sold again at Montreal to the wholesale trade at \$10.40 and \$10.50, with the usual discount off, and is resold to the retail trade at these figures, with the freight added. The shortage in sugar has been caused entirely through the lack of shipping facilities, owing to the marine strike, which prevented refiners from getting raw sugar, and if shipping facilities can be restored to normal conditions without further delay, we should get supplies of refined sugar to meet our requirements within the next 30 or 60 days."

"I would like to warn the public against buying sugar beyond their pressing requirements, because hoarding sugar is certainly going to increase the price to the consumers, who will be in want, besides depriving the rest of the public from getting their fair share of what sugar is to be had. Every wholesale and retail grocer should furnish their customers with the smallest quantity of sugar they can get along with until sugar becomes more plentiful."

### Wheat Board to Meet at Toronto

Winnipeg.—A public meeting of the Canadian Wheat Board will be held in the Board of Trade rooms, Royal Bank building, Toronto, Ont., at 9:30 a.m., Monday, September 8, when the board will hear expressions of opinion from the public on the scheme for the handling of the 1919 wheat crop.

## Lloyd George Calls Halt To Expenditures

London.—After his recent speech in the House of Commons, in which he insisted upon economy, Premier Lloyd George wrote to his ministerial colleagues, calling attention to the huge national expenditure and impressing upon them the need of immediately curtailing. The letter, as quoted by the Daily Mail, says among other things:

"The time has come when each minister ought to make clear to those under his control that if they cannot reduce expenditure they must make room for somebody who can. That is the public temper and it is right. The Premier declares it is indefensible that the staffs of the public services have hardly been reduced perceptibly since the ending of the war, and says that those responsible must be compelled to perform their duty, however unpleasant. With regard to ruthless cutting, he adds:

"We must cut ourselves with the second best—where the best is too costly."

The Premier concludes by telling the ministers that they must find time during recess to consider the best method of dealing with the question and report to him by midnight what steps they have taken or propose to take.

### Stop Work On Warships

Step May Involve Loss of Some 25 Million Pounds

London.—All private shipbuilding yards, throughout the country, numbering about twenty, are affected by the government order that all work be stopped on warships except those about to be launched. The Admiralty yards at Chatham, Devonport and Portsmouth will not stop, however, as they are entirely occupied with the refitting of 2,700 steamers which are about to be returned to the owners from whom they were requisitioned for war service. Among the warships being built at private yards are cruisers, destroyers and submarines, and the work on some of these may be continued, according to the Mail, if it found cheaper to complete them than to break them up.

Shipbuilders must be liberally compensated in cases where contracts are broken, but although several million pounds sterling may be involved, it may prove more economical than carrying out the building program.

The Mail quotes an officer of the Admiralty as saying that one sound reason for stopping work on warships is that the step will clear the yards for commercial building. There is an excellent demand for new tonnage, and this work will probably absorb the men liberated by the stoppage of work on naval vessels. According to the Glasgow Daily Record, work on 40 warships valued at \$125,000,000 has been stopped.

### Abdicated Ruler Sues for Estate

Berlin.—Former Duke Charles Edward of Coburg-Gotha has filed a suit against the republic of Gotha and its commissioners to recover his estate, which was confiscated when he declined to accept a settlement of 15,000,000 marks.

The Prince of Waldeck-Pyrmont is also suing for the recovery of half of his domain after the failure of negotiations with the new government.

### Sending Families to Switzerland

Geneva.—Swiss newspapers state that nearly all the Bolshevik leaders in Russia and Hungary, and even in Germany, have sent their wives and relatives to Switzerland lately for safety, thereby condemning their own regime of terror.

The women were supplied with false passports, chiefly Czechoslovak, and false names. The Swiss authorities have discovered this trickery and are applying stricter measures on examination.

### Denies Report

That Great Britain Is Seeking Railway Concession Through Estonia

Copenhagen.—The Estonian press bureau officially denies the report recently printed by the National Tidende that Great Britain is seeking a railway concession through Estonia to Russia, or that negotiations are under way for the lease of the islands of Dago and Oesel.

The National Tidende declared that negotiations were proceeding for the lease of Dago and Oesel, in the Baltic Sea, to England for the construction of a commercial port. The paper also states that England was seeking a railway concession through Estonia to reach the Russian market.

### \$10,000,000 Silk Cargo

Vancouver.—Ten million dollars' worth of silk, carried in four special trains, has left Vancouver for the east. The shipment was brought from the Orient on the Empress of Asia.

W. N. U. 1279

### Cannot Rely On States

Sir Auckland Geddes Says Europe Must Work Independently

London.—Sir Auckland Geddes, Minister of National Service and Reconstruction, speaking at Basingstoke on government economy, said that a special financial committee, of which Premier Lloyd George is chairman, has been formed for that purpose and that the Premier was throwing himself with great energy into the work of cutting down expenditure.

Sir Auckland said that it was useless to rely on the United States to pull the British people through their difficulties. The United States had her own trade difficulties. She had increased the industrialism of her population and was not only a great exporter of manufactures, but the greatest exporter of raw materials.

She was in the unhappy position of possessing so much that there was little she wanted, and, as a result, exchange between New York and London moved in her favor and, therefore, against her power to export. Moreover, because Britain required United States raw material, he said, it was increasingly difficult for the United States to get her manufactures across the Atlantic. The only result of United States flooding Europe with goods would be a movement of exchange in her favor, making the price of United States goods in this country prohibitive. Europe must, therefore, work out her own salvation, he declared.

### Admit Loss Of Odessa

Reds Could Not Stand Bombardment in Black Sea

London.—Occupation of Odessa, chief Russian port on the Black Sea, by allied forces is admitted in a Bolshevik government wireless message from Moscow received here.

The occupation was effected, the dispatch states, after thirty vessels had bombarded the city for two days.

On the Russian northwestern front, according to the soviet statement, the occupation was effected, with progress in the region of Ples, having progressed already to within three and one-half miles of that city.

Shortly after the Bolshevik message was received, confirmation was given in official quarters here of the occupation of Odessa. A Russian volunteer army, it is stated, had occupied the city. The Bolsheviks retired in the direction of Balta, 120 miles northwest of Odessa.

### Withdraw From One Big Union

Vancouver.—The Vancouver postal workers have withdrawn from the Vancouver trades and labor council (One Big Union). The vote of a referendum that has been in progress for the past two weeks was counted here. The result was given as 314 in favor of withdrawing and 90 against.

There are approximately 400 members of the Postal Workers' Association in Vancouver.

### The Bremen Not Captured

London.—There is no truth in the report that the German submarine Bremen was captured recently by Germany, and returned recently to Germany, according to official information given out here. It was added that the British Admiralty had no knowledge concerning the fate of the Bremen, but that it is assumed the submarine foundered while endeavoring to cross the Atlantic.

## U. S. Government Forces Prices Down

### German Ambassadors Chosen

Dr. Solf Will Represent Germany in Great Britain

Berlin.—Dr. Haniel von Hainhausen, former counsellor of the German embassy at Washington, has been selected for appointment as German ambassador to the United States, according to authoritative information.

Dr. W. S. Solf, the secretary for the colonies, is the selection for ambassador to Great Britain, and Herr Badowitz, former under-secretary of state, for the ambassadorship to China.

Fritz August Thiel, former German consular representative in Japan, has been picked for the post of ambassador at Tokio.

The appointments of the men selected for ambassadorships, it is stated, depend upon the attitude of the powers in question. If they send charge d'affaires to Berlin, Germany will take like action as to representation in the capitals of such powers.

There is no mention at present of the selection of a German ambassador to France.

Washington.—No inquiry has been made of the United States as to whether Von Hainhausen, former counsellor of the imperial German embassy here, would be acceptable as ambassador, but there is every indication that this government will not receive Hainhausen or anyone else formerly connected with the embassy under the regime of Count von Bernstorff.

### 600 Huns Deported

Sydney, N.S.W.—Following out the announced policy of the government, 600 more Germans have been deported. They include several well known buyers.

Brussels.—The Belgian senate unanimously approved the peace treaty with Germany. The chamber of deputies ratified the treaty August 8.

## Rapid Advance On Western Russian Front

London.—A communique issued by the War Office states that General Denikin's advance on the western Russian front continues with great rapidity all along the line.

The capture of Odessa is confirmed, the city having been taken by a detachment of volunteers after two days' bombardment in the Black Sea. The detachment was landed and drove the Bolsheviks out of the town.

Along both banks of the Dnieper the volunteers advance toward Kiev is progressing.

It is stated on reliable authority that the Bolshevik forces throughout the whole of the Ukraine are completely demoralized.

Paris.—General Denikin, the anti-Bolshevik leader in southern Russia, now dominates a territory larger than Germany, and his forces are daily progressing into central Russia

Washington.—Prices are beginning to turn downward in various parts of the country, but the slump has not yet gathered momentum sufficient to affect purchases being made for immediate use, according to reports to the department of justice.

Attorney-General Palmer, asked how soon results could be expected from the campaign to reduce the cost of living, the outcome of which railroad employees have been requested to await before pressing demands for wage increases, said all the government wanted was a fair chance to show what could be done to take the artificial inflation out of the market. He said officials were well pleased with the success so far attained and that cumulative results were expected when congress enacts amendments to the food control law by which criminal penalties can be imposed on profiteers and hoarders.

"We hope the public will begin to reap the benefit of our efforts before long," Mr. Palmer said. "For instance, we are making progress in obtaining promises from shoe manufacturers as to fixing a limit beyond which prices shall not go."

### Wanted Dangerous Correspondence Destroyed

Basle.—Rumanian military authorities have discovered in the archives of the Hungarian foreign ministry a telegram from Otto Bauer, former Austrian state secretary, entrusted with the management of the state bureau of foreign affairs of Bela Kun, former head of the Hungarian communist government, asking him to destroy all documents relative to the delivery of arms by Austria to Hungary, according to a Budapest dispatch received here.

### Rome to Naples By Air

Rome.—Announcement is made here of the inauguration of passenger airplane service between this city and Naples.

with comparatively slight opposition.

His actual front two days ago, according to accurate military information received here, extended from a few miles east of Odessa northward to Elizabetgrad, then north-east to a few miles south of Kursk, thence east to Novosibirsk, continuing to a point on the Volga, a few miles south of Saratov. (Since this dispatch was received the capture of Odessa by anti-Bolshevik forces has been announced.)

General Denikin also occupies all the Caucasus region from the Caspian to the Black Sea and south to the Georgian border. His forces are not occupying Astrakhan, at the mouth of the Volga, but he controls traffic on that river by occupying Tsaritsyn and a stretch along the river running northward for a distance of 200 miles.

### EXPANDING CANADIAN TRADE

Canadian Voyager under Direction of Canadian National Railways clearing for the West Indies from Montreal, July 10th, with a cargo of general merchandise. She is scheduled to return with sugar.

## Sale And Test Of Seed

Any Seed Grower May Have Samples Tested Free of Charge

The abnormal condition of seed markets during the war and the great need for abundant seed supplies to increase production made necessary the organization of a Seed Purchasing Commission, which was in effect a Division of the Seed Branch. The Commission purchased, assembled, stored, cleaned and distributed this past season seed supplies of wheat, oats, barley and rye to the value of more than six million dollars. The business was conducted as nearly as possible at cost, and the moneys as received from the sale of seed were returned to the government. In purchasing premiums were paid for supplies of superior quality. Over 400,000 bushels of seed oats were purchased in Ontario and Prince Edward Island and distributed in the prairie provinces. This quantity was required to supplement the western seed oats available to the Commission for distribution in those districts which posed upon them, they are extra-ordinary or frost. Approximately 100,000 bushels of seed rye, carried over from the previous season, were distributed in the province of Quebec.

Direct encouragement to seed marketing will be provided through the Markets Intelligence Division. Seed crop and market reports will be issued, growers and producing organizations will be put in touch with the markets, and where possible new markets will be developed.

Any seed grower in Canada may have samples of his seed tested free of charge, up to twenty-five in number, at a Dominion seed laboratory. Timothy, red clover, alfalfa, and alfalfa seeds are graded and an official certificate issued on the sample submitted. Purity and germination reports are given on all seeds when required. These certificates are used by the seller to indicate the quality of his seed and assist him in finding a market.

## Allies Reduce Coal Demands

Have Realized Germany Cannot Deliver Quantity Demanded at Present

Berlin, Germany.—The Upper Silesian coal strike is making itself felt throughout Germany, and there is consequent relief at the Ministry for Economics' announcement that the inter-allied coal commission has reduced the coal demanded of Germany from 40 to 21 million tons. It is stated that the Allies have realized that Germany cannot deliver the quantity demanded at present at any rate, and that negotiations regarding a compromise are proceeding. The Allies are understood, however, to have reserved the right to resort to the full amount specified in the treaty.

**Want Protection Against Bandits**  
Saloniki.—Delegates claiming to represent 35,000 Greeks living in the Ardanian district already suffered cording to the Athens News Agency, have telegraphed the peace conference at Paris an appeal for allied protection against bandits and the Turkish military, who, they asserted, have pillaged the country and massacred Greek inhabitants. The dispatch was quoted as saying these forces operate from a base at Erzerum. The dispatch directed attention to the fact that the people in the Ardanian district already suffered severely during the war because of the Turkish and Russian operations there.

**Americans and Germans Clash**  
Copenhagen.—Collisions occurred between German and American sailors at Neufahrwasser, and resulted in the wounding of several civilians and one German seaman, according to Danzig reports received here. Neufahrwasser is a seaport four miles north of Danzig.

The disorders grew out of a quarrel that arose in a dance hall, according to these dispatches. Americans involved in the disturbance, which was continued in the streets after the sailors left the dance hall, returned to their ship, the American destroyer Hale.

Benedick (gloomily): Oh, she's all right.

## The English Strain In America

Inbued With English Standards of Thought and English Ideals

The population of the United States is made up of very diverse elements, but this population in its political action and in its methods of life is controlled by English traditions. It is because, from the beginning of the Republic, America had accepted the principles and the precedents of English common law and had moulded its statutes or the model of English statutory law; it is because the English stock had been strong enough to impose upon the whole continent the language as well as the law of Britain, and with that language peoples had been brought up through the centuries on English literature, that these peoples have come to be imbued with English standards of thought, English ideas, English justice. Varied as is the population of the United States, we can call ourselves for all practical purposes in the work of the world, an English folk. We are assuredly an English-speaking folk. From an address by Col. Haven Putnam.

## Stop Immigration To U.S.A

Bill to Prevent Newcomers Entering Country for Two Years Introduced

Washington.—A bill to stop all immigration for two years and to deport all aliens who withdrew their first papers in order to escape military service during the war, was introduced by Chairman Johnson, of the house immigration committee. After the end of the two-year suspension period, aliens would be entitled to admission to the United States only under a passport of their written declaration to become an American citizen. They would be required to register annually until citizenship was conferred.

Fraudulent entry would be punishable by five years' imprisonment and \$1,000 fine, to be followed by deportation. Few exceptions to the prohibition of immigration for two years are permitted by the bill. Alien residents of the United States might send for their parents, grandparents, unmarried or widowed daughters or sons under 16, unless these relatives had been alien enemies, for whom special authorization for admission would be required. Skilled labor also might be imported under existing law and foreign officials, tourists, students and professional men might come into the country temporarily under passports.

Adoption of the bill would mean, its framers say, literal fulfillment of the so-called gentlemen's agreement between the United States and Japan with respect to immigration, and would keep out Japanese coolies.

Representative Albert Johnson, of Washington, chairman of the house immigration committee in charge of the preparation of the bill, says that the requirement that alien landing at United States ports must have passports with time limits will break up the great influx of foreigners.

The bill provides that aliens coming within the exemption clause of the present law must obtain passports from their own governments, advised by consular agents of the United States and limited as to time.

## Skirmishing Around Aidin

Greek Occupation Is Thorn in Side of Turks

London, England.—Turkish irregulars in Asia Minor continue their skirmishing with Greek troops around Aidin. They have also attacked a convoy escorted by Italians near the river Mender in the same area. It is clear that the Greek occupation of the Aidin vilayet is a perpetual thorn in the side of the Turks and they are using every effort by propaganda and arms to render the position impossible. In central Kurdistan a punitive expedition on Aug. 1 surprised Anadiab and captured some inhabitants, who had murdered some British officers and men. Order is being restored in this area, but the country is still disturbed.

Did you ever hear a man with an obese bank balance say that the love of money was the root of all evil?

Bachelor (chirpily): Well, old man, how's everything?

## Alarmist Report Deplored

Sir John Aird Believes Crop Equal to Last Year

Toronto.—Alarmist reports respecting damage to the crops in western Canada have given the public mind a very gloomy picture of conditions, in the opinion of Sir John Aird, general manager of the Canadian Bank of Commerce, who recently returned from a trip to the Pacific coast.

Sir John said he believed that, good threatening weather continued, the value of the western crops would be quite equal to that of last year. The grades shown thus far were better than 1918 and recent rains had greatly improved the feed situation. He pointed out that last year supposed authorities had estimated that the wheat yield might not exceed 125,000,000 bushels, but actually a total of 175,000,000 bushels was produced, and Sir John said this year's yield might equal that figure.

In central and southwestern Saskatchewan and in southern Alberta the yield was disappointing, but even in the poorer districts preservation had shown him that good farming methods paid, and in the irrigation belt the production was satisfactory.

There was every year some damage from rust, but the situation did not warrant the extremely pessimistic reports of loss from this cause which had been in the newspapers on his return to Toronto.

## Americans In The West

In The United States There Is No Cheap Farm Land Left

Toronto.—Although alarmists in the United States have taken the stand that the lure of cheap lands in Canada is draining the United States of its agricultural population, official statistics do not confirm their fears. In the United States there is no cheap farm land left and naturally homeseekers turn to Canada, which has millions of acres still unsettled. Figures from immigration officials show that an average of 28,552 Americans settled in Canada annually during the past ten years. On the other hand, 344,063 Canadians settled in the United States from 1914 to 1918. This is an average of more than 88,000 a year. What per cent of the Canadians became farmers in the United States is not known. Taking these figures into consideration, it appears as if the United States was getting the best of the interchange of population.

## Cape To Cairo Route

Northwest Corner To Be Added to Belgian Congo

Early statements were that the British were to have a mandate for all German East Africa, but now we have a Brussels announcement that Belgium will have a share of it. This northwest corner is to be added to the Belgian Congo, the British retaining the remainder. In size the Belgian portion is not large, but it is excellent grazing territory and is inhabited by some of the most industrious natives. British hesitation to consent to a Belgian mandate has been based on the claim that Belgium has all she can manage in the Congo, that she has been lax in protecting the Congo herds against epidemic diseases, and that the natives express a strong preference for British rule. The British also attach a sentimental value to the region because of its associations with their own explorers. But the concession is small, and it is left wholly clear that British rights to the Cape-to-Cairo route are safeguarded.

## German Making Trouble

Paris.—The supreme council considered the shortage of coal and discussed a message concerning the coal situation received from Herbert Hoover, head of the inter-allied relief organization. It is reported that the Germans are stirring up trouble among the coalminers of Silesia for the purpose of aggravating the coal shortage.

There isn't much hope for a man so deaf that he is unable to hear the noise of a paper dollar.

W. N. U. 1279

## Work Of Young Turk Agents

Directing A Vast Movement Against Armenia, Led By Turkish Officers

Paris, France.—In an appeal to the allies, the President of Armenia states that the Turks, Kurds and Tartars are directing a vast movement against Armenia, led by Kiazim Bey, Eper Pascha and numerous Turkish officers. Documents seized prove that the movement is the work of Young Turk agents, and the President adds that Turkish troops are everywhere disregarding the armistice terms, and encouraged by the British withdrawal, are endeavoring to establish communication with the Russian Bolsheviks.

## Method Of The Huns

French Prisoners Ordered to Be Shot While Apparent Was Pending

Lille, France.—Evidence adduced before the French military court inquiring into crimes committed by the Germans during the occupation indicates that a charge of murder may be brought against Von Heinrich, former military governor of Lille.

Testimony against Von Heinrich was given by Madame Jacques and Madame Martens, widows of men shot by Germans.

It was testified that after sentence of death had been passed on Jacques and Martens, Heinrich authorized the lawyers of the condemned men to appeal to the German emperor. While the appeal was being made, Von Heinrich, it was declared, ordered that the men be executed, and they were shot 24 hours later.

The military court also has heard the evidence against Von Zoener, former quartermaster-general at Charleville. It has been testified that he was responsible for the deportation of girls from Lille in 1916. General Von Gravents, governor of Lille at the time, it was declared, held Von Zoener responsible for the order of deportation.

Dr. Von Henservy, a resident of Fives, near Lille, told the court that Captain Himmeln Le Belaire was responsible for the murder of the doctor's 19-year-old son in November, 1916. The boy was bayoneted by a German soldier on the order of the captain. The doctor testified further that the German government, or of Lille and the German governor of Lofsbak were responsible for the torturing of French youths in German work camps.

The court is also inquiring into the case of Lieutenant Von Gynitz, of the 8th Chasseurs de Treves. The lieutenant is charged with the attempted murder of Abbe Hallinck at Narocq-Baroulet. It is declared that an officer, while drunk, twice stabbed the priest, in whose home he was living. Afterward he smashed the furniture and stole some money.

## To Flood Italian Market

Germany Has Goods Stored Ready to Rush Into Italy

Genoa.—The possible flooding of the Italian market with German goods is attracting much attention in local industrial circles. Offers have come from Switzerland, ostensibly from Swiss, but in reality from German firms, who in many instances have the goods already on the frontier waiting for delivery into Italy.

These firms are willing to give Italian houses three months' credit at one per cent. Interest and quote prices for goods delivered in Genoa, whereas American firms quote f.o.b. New York and in dollars instead of in lire.

## Hungarians Are Resentful

Vienna.—Budapest is a city of political turmoil, and the streets swarm with sinister, hungry people, according to an Associated Press correspondent who has arrived in Vienna after having made the trip from the Hungarian capital by airplane. The flight was made by the courtesy of Lt. Brancaccio, an Italian aviator.

The Hungarians on all sides feel that a tragedy has fallen over them because of the fact that their frontiers are delimited for the first time in a thousand years. They also are resentful that their hungry borders are occupied by soldiers of a nation for which they have the deepest hatred.

What you get out of life depends upon what you put in it.

## Marketing Crop On The Hoof

Policy of Raising Crops for Livestock Is Being Followed With Success

On many of the irrigated farms in Southern Alberta the policy of raising crops for the livestock carried is being followed with much success. The farm of the Canada Land and Irrigation Company at Lonsdale, Alberta, is a good example of what can be accomplished along these lines. The whole of the produce of this farm, with the exception of sweet corn and part of the potato crop and a surplus of vegetables, is consumed on the place.

About 20 to 30 Berkshire sows, raising from 150 to 200 pigs, and a small flock of pure bred sheep have been kept there. During the summer these have pastured on alfalfa, and the surplus of crop not pastured has been cut for hay to be fed to the sows during the winter. The alfalfa pastured by the stock falls for no expenses for cutting, curing and stacking hay, but results in a very profitable yield in pork and mutton. On irrigated alfalfa pasture one acre will supply fresh growing feed for five head of hogs and their litters, or five head of sheep and their lambs, and will leave a surplus to be cut for hay.

Fresh growing pasture has marked advantages in putting weight on stock. It produces more milk for the young animals and also furnishes a pasture tender and nourishing feed upon which they will thrive. On November 1st, 1918, the average weight of grade lambs taken from the range herd in the spring and put on irrigated pasture was 137 lbs., whereas at the same time the pick of 100 head of lambs from the range herd run on the prairie averaged 92 lbs. Both were about the same age, and the lambs pastured on the prairie were considered exceptionally good. On the farm average 150 lbs. at the same date.

In the comparison of pigs grown and fattened for market on irrigated lands, experience indicates that, besides the advantages of increased milk and fresh pasture for the young, the animals will average 20 lbs. heavier at the time of marketing than those raised on grain only.

During the winter the breeding stock are carried over by the surplus of alfalfa taken from the pasture, together with roots and ruffage as corn stover, pea vine, etc. The stock fed for market are given good alfalfa, peas, and roots.

In addition to the above, 300 to 500 head of spring lambs have been fed during the winter for market, and a number of weanling calves, and during some winters beef cattle.

## R.N.W.M.P. For East And West

Would Make for Greater Efficiency and Reduce Expenses

Ottawa.—The work of the North West Mounted Police will be made Dominion-wide if a plan now, under consideration by the government, is given effect. The proposal, talked of but not yet acted on, is the amalgamation of the R.N.W.M.P. and the Dominion police.

It is considered to be an anomaly in the existing system whereby there are two police forces, with two distinct heads and responsible to two different ministers. The Royal North West force operates in the west and the Dominion force in the east, though the latter's work depends essentially upon the assistance of provincial and municipal forces.

Percy Sherwood, head of the Dominion police, resigned some months ago, and it is not easy to find a suitable successor. The minister, it is thought, would be simplified by the union of the two forces under one man and one department. So much is associated with the name of the R.N.W.M.P. that there might be objections to the change. The force in the east would be essentially different from the west. For one thing it would not need to be nearly so large or to travel mounted. The ministers have resolved that their hands are not that only would greater efficiency result, but that a material savings would be effected.

No profit is with honor these days unless it is reasonably swift.

# BEECHAM'S PILLS

Keep the stomach well, the liver active, the bowels regular, and the breath will be sweet and healthy. But let poisons accumulate in the digestive organs, the system becomes clogged, gases form in the stomach and affect the breath.

## Correct

these conditions with Beecham's Pills. They promptly regulate the bodily functions and are a quick remedy for sour stomach and

## Von Beulow On The War

Tells What He Knows About Who Started The Trouble

Berlin.—Prince Bernhard von Buelow, former German chancellor, has in a rather belated interview entered the list of those making reservations concerning the outbreak of war by writing a letter to the Fremdenblatt of Hamburg, regarding the statement made by Dr. Theobald von Bethmann-Hollweg, chancellor in 1914, that the declaration of war was inevitable. Prince von Buelow sketched his long years as chancellor, tells how he was unable to avoid war and admits that peace was desired by Dr. Bethmann-Hollweg, who, he says, however, "lacked political art."

"During the grave weeks before the war," writes Prince von Buelow, "serious diplomatic and political mistakes were made by Germany's political leaders which were unjustly ascribed to the people's responsibility."

### War Ribbon By The Mile

London.—Two hundred and fifty miles of British war medal ribbon are to be issued to the men and women entitled to these decorations through recent edicts of the King.

### Minard's Liniment Cures Burns, Etc.

Bolshevik Troops Murder Persians  
London.—Details have reached here of the murder by Bolsheviks of Ibadulabeg, the Persian consular agent at Armavir, Armenia, together with 310 Persian subjects, of whom 270 were Mohammedans and forty Christians.

When the volunteer army evacuated Armavir July 27, according to the reports, the Bolsheviks called Ibadulabeg out, shot him down and mutilated his body with swords and bayonets. The Bolsheviks then herded together all the Persians who had taken shelter under the protection of the Persian flag, and shot them en masse with machine-guns and buried them, partly in the consular graveyard and partly in a common pit.

### Tough Luck

Clerk: We can't pay you the \$25 on this money order until you are identified.

Man: That's tough! There's only one man in town who can identify me and I owe him \$20.

## Monument In A School Yard

A Figure of Young Infantryman Done in Fine Granite

Looking out over grain fields and meadow in one of the best agricultural districts of Huron County, Ontario, is a figure of a young infantryman, done in fine granite. The figure surmounts a base, also of stone, and altogether it is a highly creditable art work. Inscribed on the base of the monument are the names of the young farmers of the district, who gave their lives in the nation's defense in the great war, and also those who enlisted, and those who were wounded. What makes the monument more striking is the fact that it stands in the corner of a school yard. The three young men whose lives were sacrificed in the war were once scholars in the little white brick schoolhouse. They were the sons of farmers in the neighborhood. They played and studied and worked by turns. Their schoolmates, many of them, are still there. The homes from which they went, and in which there is a vacant chair, are representative homes.—London Free Press.

### Minard's Liniment Relieves Neuralgia.

### Ukrains to Protect Jews

London.—The Ukrainian authorities declare that the Ukrainian national government has taken measures to prevent all attempts at persecution of Jews in territory occupied by its forces, according to advices received here.

## YES! MAGICALLY! CORNS LIFT OUT WITH FINGERS

You simply say to the drug store man, "Give me a quarter of an ounce of frezome." This will cost very little but is sufficient to remove every hard or soft corn from one's feet.

A few drops of this new elixer compound applied directly upon a tender, aching corn, should relieve the soreness instantly and soon the entire corn, root and all, dries up and can be lifted out with the fingers.

This new way to rid one's feet of corns was introduced by a Cincinnati man, who says that, while frezome is sticky, it dries in a moment, and simply shrivels up the corn without inflaming or even irritating the surrounding tissue or skin.

Don't let father die of infection or lockjaw from whitening at his corns, but clip this out and make him try it.

Money is called the circulating medium because it is difficult to circulate without it.

Worms, by the irritation that they cause in the stomach and intestines, the nervous system, and the blood, that they should derive from food, and malnutrition is the result. Milner's Worm Powders destroy worms and correct the morbid conditions in the stomach and bowels that are favorable to worms, so that the full nutriment of the child is assured and development in every way encouraged.

## Provinces Get Share

Money Voted for Highway Construction to Be Divided

Ottawa.—A conference on the question of highway development was opened here in the office of J. A. Campbell, head of the highways branch of the department of railways.

The problem under discussion relates to the spending of the \$20,000,000 voted for highway construction by the Dominion parliament last session. Under the provisions of the legislation adopted \$80,000 is to be paid to each of the provinces in a lump sum, and the subsequent assistance will be on the basis of population.

Representatives of provincial highways departments present at the conference included A. McGillivray, of Manitoba; Mr. McLean, of Ontario Highway Department, and Mr. Carpenter, of the Saskatchewan Highway Department.

Newswid: Did you run short of flour, Helen? The pie crust doesn't half cover the pie.

Mrs. Newswid: I know, dear; your mother told me that you like your pie very short.—Louisville Courier-Journal.

## Genuine Aspirin Has "Bayer Cross"

Tablets Without "Bayer Cross" Not Aspirin At All

Get Genuine "Bayer Tablets of Aspirin" in "Bayer" Packages, Plainly Marked With the Safety "Bayer Cross"

There is not a penny of German money invested in "Bayer Tablets of Aspirin," nor will a German citizen profit by its sale or ever be allowed to acquire interest.

The original, world-famous Aspirin, marked with the "Bayer Cross," is now made in Canada and can be had at your druggist's in handy tin boxes of 12 tablets and larger "Bayer" packages.

Genuine Aspirin has been proved safe by millions for Pain, Headache, Toothache, Rheumatism, Lumbago, Colic, Grippe, Neuritis. Aspirin is the trade mark, registered in Canada, of Bayer Manufacturing of Monacaetia, Germany of Salicylic acid.

Did your wife vote?

"Yes."

"Get along all right?"

"Yes; but it took her a long while to get her ballot folded like a paper napkin."—Detroit Free Press.

There is no poisonous ingredient in Holloway's Corn Cure, and it can be used without danger of injury.

## Airman Decorated

Major G. H. Scott, Commander of R-34, Given Commandership of O.B.E.

London.—The decorations awarded in connection with the trans-Atlantic flight of the airship R-34 have been gazetted. Major G. H. Scott, commander of the dirigible, is given a commandership in the military division of the Order of the British Empire. Brigadier-General E. M. Maitland, who represented the British Air Ministry in the flight; Capt. G. Cook, the navigating officer; Lieut. Guy Harris, the meteorologist; and Lieut. John D. Shuter, engineer officer of the R-34, are awarded the Air Force Cross, and six sergeants who were aboard the airship are given Air Force medals.

### Canadian Wounded Station Closed

Portland, Maine.—The transportation of wounded Canadian soldiers from Liverpool through this port to the various military districts in Canada has been completed, according to an announcement by Major Howard Jeffs, the medical officer in charge of the Canadian hospital clearing depot.

Major Jeffs said the transport Escudibo had been removed from the hospital service and that the Aragona would make one trip to Halifax with 200 wounded men.

Everything he wants will come to the man who waits until he doesn't want anything.

## VERY SIMPLE CURE FOR BAD COLDS

Let your cold gain headway and you can't keep it from running into Catarrh.

Catarrh never stays in the same place—it travels down into the lungs, then it's too late!

Drive colds and catarrh right out of your system while you have the chance.

Easily done by inhaling Catarrhazone, which instantly reaches the true source of the trouble, gets right where the living germs of catarrh are working.

## Catarrhazone

A Convenient Inhaler Treatment is the Proper Remedy to Cure

Hawking and spitting cures, because the discharge is cured. The nostrils are cleared, headache is relieved, breath is purified. Every trace of catarrh, bronchial and throat weakness is instantly cured.

Shun medicines that contain harmful drugs—use a safe remedy that is prescribed by doctors, that is used in hospitals, that is endorsed by thousands Catarrhazone has cured.

For winter ill's there's nothing half so good.

Two months' treatment, large size, price \$1, and guaranteed. Small size, 50c. Trial size 25c, at dealers everywhere.

W. N. U. 1279

## Alleged Betrayer Of Edith Cavell

Georges Gaston Quien Will Appear Before Sixth Court-Martial of Paris

Paris.—Georges Gaston Quien, charged with having intercourse with the enemy, and alleged betrayer of Edith Cavell, will appear before the sixth court-martial of Paris. The prosecution claims that it will prove that after obtaining funds and help from the English nurse, Quien went to Holland and returned to Brussels as a German agent and betrayed her to the Germans.

The defence will ask for an indefinite postponement until such time "as the Kaiser and other parties primarily responsible for the death of Miss Cavell are brought before an international tribunal."

St. Isidore, P. Q., Aug. 18, 1894. Minard's Liniment Co., Limited.

Gentlemen,—I have frequently used MINARD'S LINIMENT, and also prescribe it for my patients, at all times with the most gratifying results, and I consider it the best all-around Liniment extant.

Yours truly,

DR. JOS. AUG. SIROIS.

### Beligians Take Malmédy

Paris.—Belgian authorities have taken official possession of the district of Malmédy, which was ceded to Belgium by Germany under article 34 of the peace treaty.

### Minard's Liniment for sale everywhere.

Did you ever notice that the man who whines and the man who wins are not the same?

## SUMMER COMPLAINTS KILL LITTLE ONES

At the first sign of illness during the hot weather, give the little ones Baby's Own Tablets or, in a few hours he may be beyond aid. These Tablets will prevent summer complaints if given occasionally to the well child, and will promptly relieve these troubles if they come on suddenly. Baby's Own Tablets should always be kept in every home where there are young children. There is no other medicine as good and the mother has the guarantee of a government analyst that they are absolutely safe. The Tablets are sold by most druggists or by mail at 25 cents a box from Dr. Williams' Medicine Co., Brockville, Ont.

### Telephone Construction in Sask.

School and telephone construction in Saskatchewan continue at a rapid pace, according to the announced authorizations by the local government boards. During the week ending July 26, the board issued permits for telephone construction, including new companies and extension to existing lines, to the amount of \$357,165. This includes 27 new companies. Bonds are also being sold for eight new companies to the amount of \$92,550. During the same period the board authorized the issue of school debentures for seven districts to the amount of \$39,300.

### Asquith to Seek Election

London.—Herbert H. Asquith, former Prime Minister, is reported to be making arrangements to re-enter active politics.

The Edinburgh Evening News declares that Mr. Asquith probably will take the earliest opportunity to seek candidature for the House of Commons.

### Trades Unionists Lock Out Strikers

London.—Six thousand employees of co-operative trading societies in North England have struck for a 44-hour week and an increase in wages. The directors of the societies, who themselves are mostly trades unionists, retaliated by ordering a lockout of the 30,000 employees, beginning August 27.

### Next Russian Stand

Vladivostok.—Siberian forces retreating on the east Russian front have planned to make a stand on the Ishim river, which crosses the trans-Siberian railroad about 175 miles from Omsk. Reports likewise have stated that the Siberian retreat would stop on the line of Tobolsk, about 90 miles further west.

## CHILDREN NEED HELP

Spanking doesn't cure bed-wetting—the trouble is due to weakness of the internal organs. My successful home treatment will be found helpful! Send no money but write me today for free trial treatment. My treatment is equally successful for adults, troubled with urinary difficulties.

MRS. M. SUMMERS, Box 966 Windsor, Ont.

## Britain Will

Establish Fair Prices

Practical Plan to Defeat Speculating Exporters in Necessities

London.—The board of trade, in explaining the profiteering law, indicates that there will be a central investigation by a central committee into the cost and profits of production and distribution of goods, also a local investigation by a committee subject to appeal to a tribunal into complaints of the general public concerning the act will advise not to take action which will hamper or restrict legitimate commercial enterprise.

Local authorities have the option of establishing a local committee. All trustees and trustees established under the act will advise not to take action which will hamper or restrict legitimate commercial enterprise.

### They Come Back

D. P. HAYS, the Carstairs Land  
Man reports extensive Land Sales in  
that district during the past month,  
fifty per cent of the buyers being  
local men. Considering that this  
has been an unfavourable season it  
speaks well for the confidence of the  
public in the future of our country.

Mr Hays says that a number who  
sold out last Spring and left for other  
parts in the hope of finding greener  
fields, have returned and purchased  
farms.

### A Case of Identity

Perhaps you know the hero of story.  
The anecdote is taken from the famous  
British magazine of humor, Pearson's  
Weekly.

"On one occasion," said a Yankee, "I  
shot 999 snipe."

The Englishman looked incredulous.  
"You might make it a thousand while  
you're about it," he sneered.

"No," answered Uncle Sam's offspring  
righteously, "it's not likely I'm going to  
tell a lie for one snipe."

The Englishman determined not to be  
outdone, and began to tell a story of a  
man who swam from Liverpool to Boston.

"Did you see him yourself?" inquired  
the yankee.

"Why, yes, of course I did. I was  
coming across the water and our vessel  
passed him a mile outside Boston harbor."

"Well," retorted the Yankee, "I'm  
glad you saw him, stranger, 'cos you're  
a witness that I did it. I was that  
swimmer!"

### STRAYS

Strayed from T. K. Nelson's home,

## "A Joan of Arc Machine"

"SHE withstood everything in the field and  
above all was, and still is, the last and  
only car to survive until the cessation of  
hostilities"—Extract from letter received by  
Ford Motor Company from a British Soldier,  
in Africa.

Over shell-torn roads, through water soaked fields, second  
only to the tanks in its power to climb debris and crater holes,  
the Ford car made a world famous record in the fighting area  
of the great war. In press despatches, in field reports, in  
letters, in rhyme and song the praises of the Ford were sounded.

In France - 700 cars out of 1,000 were Fords  
In Italy - 850 cars out of 1,000 were Fords  
In Egypt - 996 cars out of 1,000 were Fords  
In Mesopotamia - 999 cars out of 1,000 were Fords

The Ford power plant that established this world-wide record  
in every theatre of the war remains the same. It will be in  
the Ford you buy.

Ford Headquarters, Toronto, Ont. On Open models the Electric Starting and  
Lighting Equipment is \$495 extra.  
Cooper Bros. Station B.R. (closed) market prices include Electric Starting and Lighting  
Equipment. Immediate time, tire carrier, and non-skid tires on ray, mechanical  
equipment on closed cars only at \$60 extra. These prices are F.O.B. Ford, Ont., and do  
not include War Tax.

Buy only Genuine Ford Parts. 700 Canadian Dealers  
and over 5,000 Service Garages supply them.

Leslie Farr, Dealer, Airdrie.
